

# 200A SN Series Load Center

## OPTIONS

### Breaker

Main Lug Only (MLO)

Main Breaker (MB)

Spaces/ Circuits

30/48

40/40

- Invertible
- Bonding Screw
- Visible Neutrals
- Insta-Wire
- Durable Hook-Rails
- Integrated Neutral Bus
- Extended 10-Year Warranty

- 75% Neutral & 50% Ground positions based on number of circuits
- Can use twin AFCI breakers in all PN & SN Series load centers.

All devices come with an integrated neutral bus.

Mounting tabs on the trim hold it in place on the load center, freeing up both hands to drive the trim screws.

Invertible for bottom feed application.

SN Series Plug-On Neutral Load Centers come with one factory installed ground bar.

The pre-positioned bond screw eliminates bond strap/screw assemblies, and reduces the risk of losing components in the field.

Combination head screw on the neutrals, ground, trim, upper pan, and bond screw provide installation flexibility.

The patented INSTA-WIRE™ neutral/ground system allows for faster installation because screws are backed out, ready for wire insertion. The visible neutral and grounds system aids in the insertion of conductors.

A rigid, sturdy base pan provides the ruggedness required for the most harsh applications.

Aluminum Bus

The outdoor enclosure has a slide hinge door for the easiest installation and can be removed by backing out only one screw.

a Applies only to NEMA 1 PN and SN plug-on neutral load centers
